with which the market responded to sell- ing pressure, the bears did not press their advantage. The steady demand for stocke at the lower level was not to their liking. Efforts to get back stocks sold caused an upturn and prices gradu- ally recovered the ground lost. Trading was of a listless character throughout the session. There was a disinclination to make fresh commitments, because the stock exchange is not to open on Monday intil noon. The holiday in London today tended still further to restrict trading here. The showing by the banks on the week of an actual cash gain of nearly \$3,500,- 000 was closely in line with forecasts. Shifting of the burden of loans was re- flected in a loan decrease of nearly \$10,- 000,000, and over \$5,000,000 was added to the surplus, which was nearly doubled. Bonds were inclined to weaken again, with Rock Island refunding 4s under marked pressure. Total sales, par value, \$549,000. special points of strength in the list which served to sustain the market and facilitate profit-taking and at intervals to turn the whole movement upward. Sentiment over the future remained optimistic, but recognition was given to the unwisdom of attempting to force a campaign to advance prices at a period when the season's demands for trade and commerce were drawing down bank reserves shrinkage of imports. This showing is and making extra demands for credit facilities.

the season's demands for trade and commorce were drawing down bank reserves and making extra demands for credit shrinkage of imports. This showing is complicated, however, by the question of the hardening tendency of money rates, in spite of the scaling down of stock market loans that was in progress, resulted in working inroads on banking resources. The approaching money settlements in Berlin are being prepared for by resort to the London gold mar-

are therefore inspired to caution.

There is a distinct improvement in the tone of the investment markets. The Silver King rise in securities bearing fixed interest party reflects this confidence.

Trade advices continued mixed. The influence of crop damage remains to be measured. The iron and steel trade is given over to conjecture of the new competition to be met with reduced duties and of the extent of railroad buying to be expected. Copper statistics are a strengthening influence on the price of the metal.
